3. Place and timing for documents- and technical-check

Documents- and technical check will **take place on 19.May 2023 preferred between 17.00h – 19.00h** and on 20.May 2023 between 07.00h - 08.30h, in front of "Sportzentrum" Mühlen. Parc Ferme will be open 20.May 2023 from 07.00h to 09.30h and 21.May 2023 from 07.00h – 08.30h. On first day, after arrival at the finish line the motorcycle must not be parked in Parc Ferme, no Parc Ferme during night time. **Driver's briefing** will take place 20.May 2023 09.30h and 21.May 2023 08.30h, **compulsory attendance**.

4. The Implementation of the Event

The start takes place with the engine stopped after the start signal. Within a minute the engine has to be started manually, this is considered a "Start Test" on the first and second day. The route consists of a circuit of about 50 km in length and is to drive for **drivers in Class C1-C5 and Y1-Y3** on the first day three times and on second day twice. Total length thus **app. 250 km**.

There are two time- and two pass-controls per lap. There are five Cross Country tests during the competition.

Drivers in the "**Veteran 1+2**" classes only drive two laps on the first and second day. Total length for them therefore about **200 km**. These drivers also drive **five Cross Country Tests**, with the third Cross Country Test to be completed on the first day promptly after crossing the finish line of the second lap.

On the end of the last lap on each day, drivers can enter final time control also before their target time. We will drive on public roads and single trails that are mostly unpaved. The Public Road Regulations applies unrestricted on all roads. During the entire event is to drive with special care and attention. The instructions of the organizers and their helpers has to be followed.

There is an absolute ban on training on the off-road course and the special stages! Violation will be punished with exclusion of racing.

5. "Final of the ST-Fastest"

After the last rider has finished the Classic Enduro, the 10 riders with the fastest times in the Cross Country Test up to that point will have their own race in the "Final of the ST Fastest". In ascending order, the driver who has been fastest up to that point drives last, the drivers each drive one lap. This race does not count towards the ESA Championship.

6. Rating / Penalty Points

- Age of bike and age of driver will be deducted from 200 points (= handicap points), result will be added to points reached in the different tests
- Start test not full filled < 10 points
- Cross country test per second 1 point
- Lost time ticket 20 points
- Tolerance for exclusion (delay on route) 30 minutes
- Passing by one time control or check point < exclusion
- Arriving at the time control too early or too late is penalized with 60 penalty points for every minute started. In the event of a delay, the driver must continue with this new target time (this is the old target time + delay!) in the following time controls. No "return" to the original (old) target time allowed.
- Drivers not rated on the first day may start again on the second day. For the overall ranking of this "two day event", 1000 penalty points are added to this driver on the second day. For the ESA championship, however, every single day is scored separately, without these penalty points
- Bike not parked in time in Parc Ferme < no start
- Team-Contest – 3 drivers can form one Team, min. one of them has to be driver in the Oldtimer class. All 3 drivers have to pass all tests and reach the finish line, otherwise the team will not be counted in the Team-Contest.
